THERAPEUTIC RIDING

Therapeutic riding ministers to the body, mind, and spirit of children and adults with disabilities. Horses provide a distinctive type of therapy to the body through sensory input of pressure and movement that improves muscle strength, coordination and balance. Students will have a great time learning while developing social skills and horsemanship knowledge. A physical therapist conducts all Hippo-therapy sessions.

HELP US GROW

We offer incentives for referrals that result in new students for English, Western or Therapeutic. We also offer family and multiple session discounts. 4H and Girl Scout riders are welcome!
